

Blindfolded Water Fight

The materials for this activity include two blindfolds and two water guns. Break into two groups and take one member from each group out of the room and blindfold them. While they are being blindfolded, put two water guns in the room somewhere. When the blindfolded players come back in, each group has to verbally guide their player to find their water pistol. Once they each find their pistol, the groups instruct them so they can have a water fight. The team members will be giving directions for a direct hit.

Hint:

- Break the teams into boys vs. girls
- If your teammate finds the pistol first, after he/she soaks the other blindfolded player, instruct him/her to soak the other team.
