

The Story Behind Fields of Faith

It all started a few short years ago. I was frustrated by looking at the culture of the United States and its moral digression. I couldn't help but think about my three kids who were about to become teenagers, and I was particularly struggling with the fact that we had so many great Christian resources in America — more than at any other time in history — and, yet, we still seemed to be losing the moral and spiritual battle. Everywhere my wife and I went, we were, as parents, always on the defense against the culture and the media. And anyone who knows anything about sports knows that if you're always on defense, you're not going to win. At some point you have to go on offense.
